BACKGROUND DISCUSSION:

The Master Transportation Plan is currently being updated by Horrocks Engineers. A concern regarding the jurisdictional transfer of roadways involving 9000 South, 7800 South and New Bingham Highway and the Utah Department of Transportation has recently arisen however; a complex Jurisdictional Road Transfer was not included in their scope of work. Horrocks Engineers has the most current information regarding the City's roadways, has the technical expertise necessary to perform the work and we are able to meet an expedited schedule using Horrocks Engineers for this work. We have reviewed their scope of work and costs for the work and find them to be reasonable.

UDOT Jurisdictional Transfer of Roadways

The City Council approved the Mayor signing a letter to UDOT beginning the process of considering transferring the ownership of various roadways within the City. Under consideration is the transferring of 9000 South from 4800 West to 5600 West, and portions of 7800 South west of 4000 West to UDOT. The consideration will also include transferring portions of New Bingham Highway to the City in exchange for UDOT taking ownership of portions of 9000 South and 7800 South.

Horrocks Engineers has prepared the attached scope of work and cost for an engineering analysis required as part of the transfer.
